NADIR SHAIKH

UI/UX & Product Designer

Mumbai, India | +91 82866 07726 | nadiruxdesign@gmail.com

Portfolio: https://uxraw.vercel.app | LinkedIn: https://www.linkedin.com/in/lucif3r72/

SUMMARY

UI/UX and product designer with 5+ years of end-to-end product design experience across healthcare, maritime, logistics, real estate, finance and enterprise software. Stays with a product across its whole lifecycle, from user research and UX strategy through design systems, prototyping and delivery, with working knowledge of HTML, CSS and JavaScript for hands-on hand-off. Has delivered 40+ projects for 15+ clients, including an accessible mobile design system now reused across Anglo-Eastern's app portfolio and an AI-assisted hiring platform handling 10K+ candidate records.

SKILLS

Design: Product Design, End-to-End Product Lifecycle, UI Design, UX Design, UX Research, UX Strategy, Information Architecture, User Flows, Wireframing, Prototyping, Interaction Design, Design Systems, Component Libraries, Usability Testing, Accessibility (WCAG), Responsive Design, Mobile App Design, Web Design, Branding

Design Tools: Figma, FigJam, Adobe XD, Sketch, InVision, Adobe Illustrator, Adobe Creative Suite

Development (working knowledge): HTML, CSS, JavaScript, React, Node.js, Design-to-Code Handoff

Ways of Working: Design Thinking, Stakeholder Workshops, Agile Collaboration, Developer Handoff, AI-Assisted Research and Design Workflows

EXPERIENCE

UI/UX & Product Designer | Werq Labs (AI-native product studio) | 2023 - Present

- Associate Team Lead: run and lead a team of 3 UX designers.
- Own the product design process end to end for digital products, from user research and UX strategy through UI design and design systems to delivery and hand-off.
- Build scalable design systems and component libraries, and work closely with engineering to hand off production-ready interfaces.
- Design web and mobile products in Figma and FigJam, building in HTML, CSS and JavaScript where needed, and use AI tools to speed up research, iteration and delivery.

UI/UX Designer (Freelance) | Self-employed | 2019 - Present

- Partnered with startups and creative teams to build UX strategies and visual identities from the ground up.
- Delivered wireframes, prototypes, design systems and production-ready interfaces, grounded in the user's perspective and the product's actual requirements.

SELECTED PROJECTS

22 case studies with process and outcomes at https://uxraw.vercel.app/work/. A selection:

WeCare (Redesign) | Anglo-Eastern | Mobile app, Android & iOS | 2025

- Redesigned a wellness, training and community app for 80,000+ seafarers and onshore staff, replacing a cluttered dark interface with an accessible, WCAG-compliant design system.
- Results: user feedback improved 42%, Appreciation feature usage rose 3.5x, and the design system is now reused across Anglo-Eastern's app portfolio.
- Case study: https://uxraw.vercel.app/work/we-care-aesm/

AESM TAP (Talent Acquisition Portal) | Anglo-Eastern | Web & mobile | 2025

- Digitised 10+ paper forms and unified 3 disconnected platforms into one hiring portal for a shipping group managing 80,000+ seafarers, adding maritime-specific candidate search and role-based approval routing (RBAC).
- Case study: https://uxraw.vercel.app/work/aesm-tap/

En-Blocs (Collective-Sale Intelligence Platform) | Web portals & mobile, Singapore | 2026

- Designed a three-portal platform for Singapore's collective-sale market: an agent portal with licence verification, an opportunity dashboard and owner-intent reports; an admin portal for verification, subscriptions, government data sync and audit logs; and an owner portal with a moderated forum and mobile screens.
- Designed to the client's request, built on an understanding of the whole en-bloc process and how each part of it functions.
- Case study: https://uxraw.vercel.app/work/en-blocs/

SIAA (AI-powered Applicant Tracking System) | Web | 2026

- Designed the AI-assisted screening and hiring workflow for a live applicant tracking system and candidate portal.
- Platform results: ~30% reduction in hiring time, ~90% AI screening accuracy and 10K+ candidate records handled.
- Case study: https://uxraw.vercel.app/work/siaa/

Uberheal (Healthcare Operations Platform) | Web SaaS | 2025

- Designed a unified, role-based platform for clinic front desks, referral teams and campaign managers, combining a contact center (WhatsApp, SMS, AI and manual calls) with scheduling, referral and campaign tools, replacing multiple disconnected systems. Live in US clinics.
- Case study: https://uxraw.vercel.app/work/uberheal/

AGEES (Consulting Website) | Design & frontend development | 2026

- Designed and built the company's first website: market research, a four-page conversion funnel and an integrated booking calendar.
- Results: consultation bookings up 40%, with ~1K monthly visitors.
- Case study: https://uxraw.vercel.app/work/agees/

Also in the portfolio: ManningFlo, Werq Labs website, DayStar Childcare, Renttro, Welspun Michigan, BotXpert, Stellar AMC, Global Shipping DXB and more.
